

# Practice Component

Review your program's existing emergency response plan.

- What is missing?
- What needs updating?
- Work with the leadership at your program to make any needed changes to ensure it is clear and comprehensive.

If you don't have your first plan yet or if your plan needs work this is the perfect time to do that work!

Come prepared to share:

- One strength of your plan
- One area still needing clarity
- One immediate next step.
